

BX/MT/444/T Maelor Turvy Plastic Litter Bin

BX/MT/444/T Maelor Turvy plastic litter bin at a housing development in Stoke-on-Trent.

This contemporary style, robust plastic litter bin offers an economic alternative to steel or stainless steel. The galvanized inner frame can be bolted either to the ground or to a pre-drilled concrete base when installed on tarmac, grass or indoors. The liner is situated between the sides of the frame and the lightweight outer cover then slips easily over the top and is locked into place via a key operated locking mechanism that secures the outer to the steel framework within, preventing removal of the bins outer body.

Features:

- 90% of the standard black bin is made of recycled materials
- 90, 100 and 120 litre capacity
- Curved top galvanized frame as standard
- Steel frame supplied with baseplate and fixing holes
- One piece "lock-on" lightweight cover
- Chamfered edges to litter posting apertures ensures rubbish is directed into the liner without overspill between liner and outer case
- Removal of outer case and liner allows cleaning of area beneath and around location of bin
- White/gold or reflective bands to outer casing above aperture

Optional Extras:

- Plastic bait base - **BX45 X-PBB**
- Finger curtain - **BX/MT/455**
- Ashtray - **BX/MT/453**
- Stubbing plate - round - **BX/MT/452/B**
- Extended legs for concreting into the ground
- Pre-drilled ballasted base for grass, tarmac and indoor installations
- Wide range of colours
- Corporate logos and signs
- Replacement liners available from stock - **POA**

Dimensions:

- Capacity: 100 litres
- Height: 1120mm
- Diameter: 600mm
- Plastic body weight: 7.2kg

Showing the removal of the lightweight, easy to lift outer case.
